

Z-92 and Z-62 High Performance Loudspeakers BG, the world leader in planar ribbon loudspeaker technology, announces two exciting new models from its critically-acclaimed Z-Series. The three-way floorstanding Z-92 (\$1249.50 ea. MSRP) and the versatile LCR Z-62 (\$999 ea. MSRP) form the heart of an affordable audiophile system that combines stunning looks and craftsmanship with lifelike clarity and detail.

Reflecting BG's latest design technology, both models utilize an advanced three-way design with unique, coaxially-mounted mid and high frequency planar ribbon drivers. This unique approach delivers an ideal solution for accurate sound reproduction with flexibility in placement. The driver's wide yet controlled dispersion is especially critical for center channel applications to ensure smooth, even coverage for all listeners.

Complementing the three-way design are twin 6.5" black aluminum cone woofers featuring double-gap motors and neodymium magnets. This high performance design delivers high power handling, excellent dynamics and tight, clean bass to rival the amazing clarity of BG's innovative planar ribbon driver.

The Z-92 and Z-62 are available in choice of two real wood finishes — Black Ash and Light Maple — both designed to beautifully complement a broad range of interiors and Home Theater furnishings. Backing up the speaker's promise of performance and quality is BG's lifetime warranty which covers parts and labor.

- > Patented planar-ribbon drivers provide amazing detail and lifelike clarity
- > Aluminum woofer cones provide quick response and compatible resolution
- > Patented double-gap motor technology provides much lower distortion
- > Available in choice of two real wood finishes: Light Maple and Black Ash
- > Lifetime parts and labor warranty

in Light Maple.

> GENERAL SPECIFICATIONS

Design	Three-way, vented enclosure
Woofer	Two 6.5", black anodized aluminum cones Neo motor with double-gap geometry
Midrange	10" x 5" Neo10 planar panel
Tweeter	2.5" x 3.5" Neo3PDR planar ribbon coaxially mounted in front of Neo10
Crossover frequencies	500 Hz, 2.3 kHz
Sensitivity, 2.83V, 1m	91 dB
Nominal impedance	4 ohm
Power handling	200W, RMS
Cabinet finish, real wood veneer	Light Maple or Black Ash

> SPECIFICATIONS

	Z-92	Z-62
Application	Floorstanding loudspeaker	LCR (left-center-right)
Frequency response*	32 Hz - 25 kHz	50 Hz - 25 kHz
Weight	70 lbs. (32 kg)	40 lbs. (32 kg)
Dimensions HxWxD inch (mm)	44.25 x 7.7 x 14 (1016 x 173 x 355) without detachable feet	7.7 x 26.8 x 11.5 (173 x 680 x 292)

*Measured @-6dB from SPL averaged in 100Hz-8kHz range

Z-92 Shown without grille
in real Black Ash.
